# A few words about our company

Invictus Global Security limited is a Belgian company which was founded in 2013 in Forest, in Brussels Region. Our company was authorized in 2014 by the Belgian Ministry of the Interior.

IGS PROTECT distinguishes itself from the competition by an approach focused essentially on the needs of our customers, the training of our employees, a quality recruitment managed by a well organized and meticulous administrative service.

IGS PROTECT is committed to providing you with quality work that meets your requirements through good administrative and operational monitoring. Our operating headquarters are located in Sint-Pieters-Leeuw at the edge of the Ruisbroek canal. An impenetrable fortress by high-end security systems (armored doors, secure room for your sensitive documents, anti-intrusion system, 24-hour camera surveillance, ...). Our company cares about the surrounding environment and the energy management of its premises through the use of low consumption and low emission technologies.

We have a very effective management system, both in terms of customer management and at operational level. Each section of our company is governed by clear procedures, so that each member who constitutes it knows what to do and can move forward effectively in its work.

***„IGS PROTECT IS AT THE HEART OF THE CLIENT’S INTEREST”***

## Our Values

Our company aims to become a key player in the field of security, to do this it relies on solid employees with a high level of training and increased experience in the field.

- ✓ **Transparency:** The keystone by which we obtain the trust of our customers, transparency is the cement of an excellent commercial relationship.
- ✓ **Confidentiality:** Each of our security guards must protect the confidentiality of our customers at all times.
- ✓ **Discipline:** Each employee must know the legislation relating to our profession, but also the procedures, rules and internal instructions of our company.
- ✓ **Integrity:** Our mission is to serve our customers with unfailing ethics.

# The services provided by **IGS PROTECT**

## Public institution

We are active in public institutions in the Brussels region and more particularly for highly sensitive sites. Our agents are multilingual and trained to act with diplomacy and professionalism.

## Access and person control

All our agents are trained to control the entrances and exits of your establishment. Reception, information, orientation and registration of visitors, but also many other services.

## Retail & commercial inspection

Thefts can lead to a sharp drop in store revenue, and therefore represent an obstacle to the development of its profit margin.

## Property surveillance

Our security guards ensure the protection and security of your property as well as people against any malicious act.

## Event security

Managing and controlling access and exits for thousands of people, by channeling flows and overflows quickly and efficiently, requires increased expertise and experience on the field.

## Security dogs

The handler is a guardian who works in pairs with a trained dog.

## Support 24/7

We ensure permanent availability for our customers whose activities requires it.

## Personalized service

We analyze the requests of our customers on a case-by-case basis in order to offer them a solution adapted to their needs.

# 10 Years experience

Thanks to a tailor-made approach and a work of quality in the field, IGS PROTECT quickly convinced a prestigious clientele with which we have been collaborating for a long time.
